

## *The Sense of being Home*

### **WELCOME TO CANIS RESORT!**

Luxurious ambience for four paws: This and much more is what our guests may expect. We offer individualized care, great sensitivity for your dog, and comfortable and welcoming surroundings around the clock.

### **DOG CARE**

Happy like a dog with two tails? Even with just one tail, the happiness of your dog is ensured by our specially trained DOG SITTERS. They take care of our boarding guests 24 hours a day, 7 days a week, and individually attend to the animals' needs.

Playing, cuddling, special treatments for the coat? Our dog experts know about the nature and the needs of the animal. We follow a clear philosophy with our care concept suitable for dogs: We set new luxury standards for the benefit of the dog!

At CANIS RESORT, your dog gets his or her own DOG LODGE which he or she shares with a maximum of four four-legged pals. There they have their own beds, their own garden – and may decide anytime where they would like to spend their time.

Our huge outdoor area invites to fun cavorting with the DOG SITTERS and the other tail-waggers. The whole hotel resort in general lives up to the highest demands a dog can have – individually fitted.

## DAY CARE

We offer your dog a second home in our 5-star ambience any time! Our offer DAY CARE is targeted at business travelers, employed persons, "all day shoppers" and other very busy dog lovers. Immediately upon arrival, the dog enjoys attention by sitters and fellow dogs.

## OVERNIGHT CARE

For your vacation or when it simply takes a while longer: If you want your dog to feel safe and cared for as best as possible even over night, our offer OVERNIGHT CARE is the perfect solution. Even at sleeping time, our DOG SITTERS supervise our dreaming hotel guests.

## DAY CARE LIGHT

For the short shopping tour, a brief meeting, or as a treat for your dog: Of course, we also offer a four-hour half-day care for your darling! A short lodging for the canine wellbeing at CANIS RESORT is the possibly most pleasant reason for a separation from dog mum and dad.

## GROOMING

Much more than daily coat treatment: The special wellness program for the dog! Our grooming experts and dog coiffeurs ensure an exceptional pampering for your dog.

## TRAINING

At your request, the training of your dog can be supported, complemented or continued during his stay at CANIS RESORT.

We will create a training schedule tailored to your darling's individual training level and specific needs which will meet your dog's proficiency level and whose extent and content you, naturally, co-determine.

We also offer individual Training as well as Leah Training. In addition to this specific Training for Puppies and Young Dogs is provided.

## PICK-UP SERVICE

The dog taxi to the resort: Upon demand we pick up your dog at your house and also bring him or her back. The same is true for holiday makers residing at a hotel.

## GATE TO GATE SERVICE

A jolly reunion: Upon demand we can also reunite you and your darling directly at the airport – of course, we can also pick him or her up from there.

## HEALTH CARE

Alive and licking: The animals' wellbeing and health are especially important to us! This is why we always have experienced veterinarians and psychotherapists available who take care of the dogs and can continue all medical treatments that have possibly been prescribed for your dog.

Even the regular health check-up of the animal with all necessary vaccinations and treatments can be combined with a stay at CANIS RESORT.

## OUR STANDARDS

We have considered every eventuality! On the whole premises with the main building and the DOG LODGES we only use materials and equipment especially suited for the needs of dogs. Our guiding lines are an absolutely cozy atmosphere paired with high functionality and safety. You will be impressed by the high quality of all the equipment at CANIS RESORT. These standards also apply to our food. Does your darling have a special wish for his or her diet? Please let us know!

One of our other special services is that you may check in and out anytime, day and night.
